"Scream 6" is a 2023 Science Fiction movie directed by Stephen E. Rivkin and starring by Sam Worthington, Zoe Saldña. Set more than a decade after the events of the first film, learn the story of the Sully family (Jake, Neytiri, and their kids), the trouble that follows them, the lengths they go to keep each other safe, the battles they fight to stay alive, and the tragedies they endure.

It's been one year since the events of the last "Scream," and the Carpenter sisters — Sam (Melissa Barrera) and Tara (Jenna Ortega) — have moved to New York with their friends, the Meeks siblings, Mindy (Jasmin Savoy Brown) and Chad (Mason Gooding). While Tara and the Meeks twins attend college in New York, Sam works two jobs and spends most of her time both haunted by what happened in Woodsboro and being extremely overprotective of Tara, to the point where Tara is starting to feel smothered. Of course, Sam is right to be worried, because new bloody Ghostface murders begin happening all around them. And I do mean bloody — "Scream 6" is arguably the most gruesome entry in the franchise yet, with extremely gnarly kills that linger long on blood, gore, and suffering. It's unpleasant, and that's not entirely out of character — people often seem to forget that while the first "Scream" has plenty of humor, it's also a nasty piece of work — the now-famous opening kill of Drew Barrymore's character is harrowing. Escalating the brutality makes a certain amount of sense — this is the sixth entry, after all. But it's also so frequently gruesome that it clashes with the goofy, even occasionally campy atmosphere this new movie is going for. But I did appreciate how feral and frenzied the new Ghostface is here — the familiar mask is deliberately damaged-looking, and the physicality of the character is dialed up to the extreme.
